## Installing Template.

After unzip the download pack, you'll found a Template Folder with all the files.

1. You can view this Template in any browser, you can display or edit the Template without an internet connection.

2. Now go to your cpanel or open your FTP Client (like Filezilla) and upload the content of the Template on your server root.
3. Once the files are done uploading go to [www.yourdomainname.com/index.html](http://www.yourdomainname.com/index.html)

## HTML code Structure

### Header Code

```
1  <!DOCTYPE html>
2  <html class="no-js" lang="">
3    <head>
4      <meta charset="utf-8" />
5      <meta http-equiv="x-ua-compatible" content="ie=edge" />
6      <title>Nova - Free Bootstrap 5 Landing Page</title>
7      <meta name="description" content="" />
8      <meta name="viewport" content="width=device-width, initial-scale=1" />
9      <link rel="shortcut icon" type="image/x-icon" href="assets/img/favicon.svg"/>
10     <!-- Place favicon.ico in the root directory -->
11
12     <!-- ===== CSS here ===== -->
13     <link rel="stylesheet" href="assets/css/bootstrap-5.0.0-alpha-2.min.css" />
14     <link rel="stylesheet" href="assets/css/LineIcons.2.0.css"/>
15     <link rel="stylesheet" href="assets/css/tiny-slider.css"/>
16     <link rel="stylesheet" href="assets/css/animate.css"/>
17     <link rel="stylesheet" href="assets/css/lindy-uikit.css"/>
18   </head>
19   <body>
```

### Footer Code

```
777
778     <!-- ===== JS here ===== -->
779     <script src="assets/js/bootstrap.5.0.0.alpha-2-min.js"></script>
780     <script src="assets/js/contact-form.js"></script>
781     <script src="assets/js/tiny-slider.js"></script>
782     <script src="assets/js/wow.min.js"></script>
783     <script src="assets/js/main.js"></script>
784   </body>
785 </html>
786
```

## Changing Default Color

As its default color is `#2F80ED` find out all `#2F80ED` open `assets->css>lindy-uikit.css` file and replace it with your own color code, to change the color preset

## Changing Font Family

```
body {  
  
    font-family: "Fira sans", sans-serif;  
}
```

To change the font-family you have change the current **font-family** property with your own **font-family (from lindy-uikit.css file)**. But, make sure you have including the font before on header (using CSS link) or on CSS (using import)

## Contact form setup

As we use php script for contact form your hosting should allowed php mail function. For setup your email just replace the code below with your own email at `assets->php>contact.php` file.

```
20  
21     // Set the recipient email address.  
22     // FIXME: Update this to your desired email address.  
23     $recipient = "email@gmail.com";  
24  
25     // Set the email subject.  
26     $subject = "New contact from $name";  
27
```
